About Us

Kalyan Industries founded in **1952** have been providing machines and satisfactory services to **Plywood & Wood Working Industry.** Initially started with Wood Working machines, which have been preferred most by the end user, Kalyan's machines created a niche for themselves as a reliable, long performing and cost effective machines. With a focused research and development programme, combined with the solid family values which shaped the company, Kalyan's manufactured Rotary Peeling Lathe machines, Roller track & Band / Mash / Continuous Dryers are yielding excellent results. Kalyan Industries is manufacturing Rotary Peeling Lathe, Veneer Dryer, Guillotine Jointer, Pneumatic Clipper, Scissor Lift, Rip-Saw and Automatic Trimmer in the workshop with covered area of 45000 sq. feet, fully equipped with precise machinery, precision instruments, by expert mechanics under the strict vigil of highly skilled technical staff. The innovation and development is looked after by a separate wing of R&D / Designing. It is the proud claim of the company that it has lions share of Plywood machines in India and also exporting the same to foreign countries while the industry well connoisseur and prefer Kalyan's Manufactured Plywood Machines.
